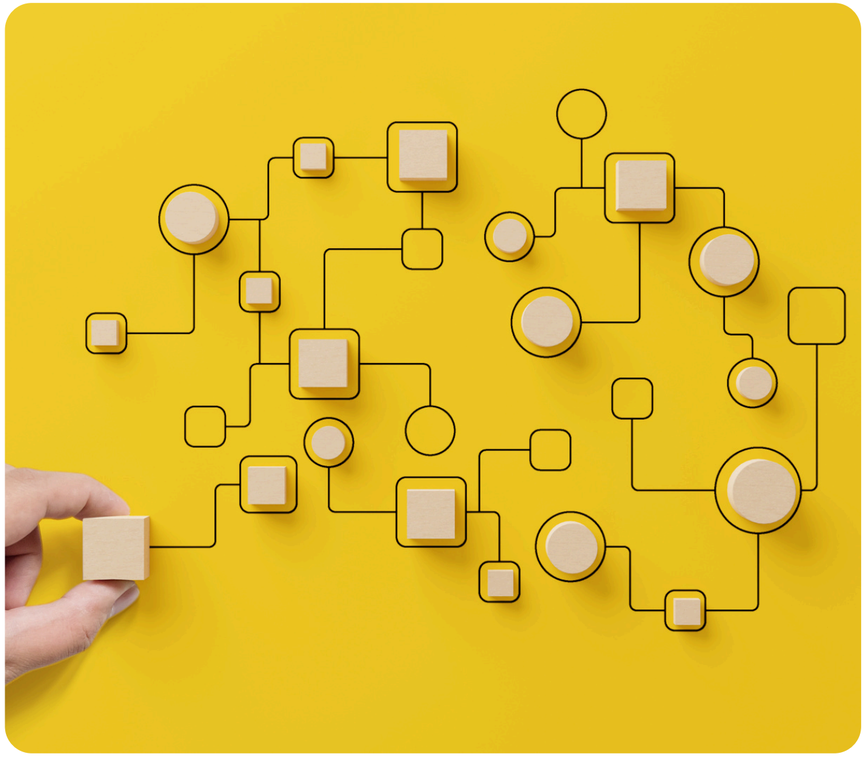
# About Our Company

## A Brief Story About The Company

Our journey at SwiftCore Technologies began in January 2020, inspired by our previous experience at the SickKids Foundation, where we automated donor management and donation processing. Since then, SwiftCore, a Toronto-based digital agency, has been driven by a constant need to innovate and build systems that provide real-world impact. We achieve this through partnerships with private sector and non-profit organizations whose mission is to make a positive difference in the world.

SwiftCore TECH

# Our Process



## Discovery & Planning

Understand your goals, challenges, and requirements to craft a clear roadmap.

## Design & Develop

Create intuitive, tailored solutions and build them with precision and scalability in mind.

## Testing & Quality Assurance

Ensure functionality, reliability, and seamless performance through rigorous testing.

## Training & Support

Deploy solutions with expert guidance and provide ongoing support for continuous success.

SwiftCore TECH

# Notable Projects

A few of the cool projects we've had the privilege to work on.

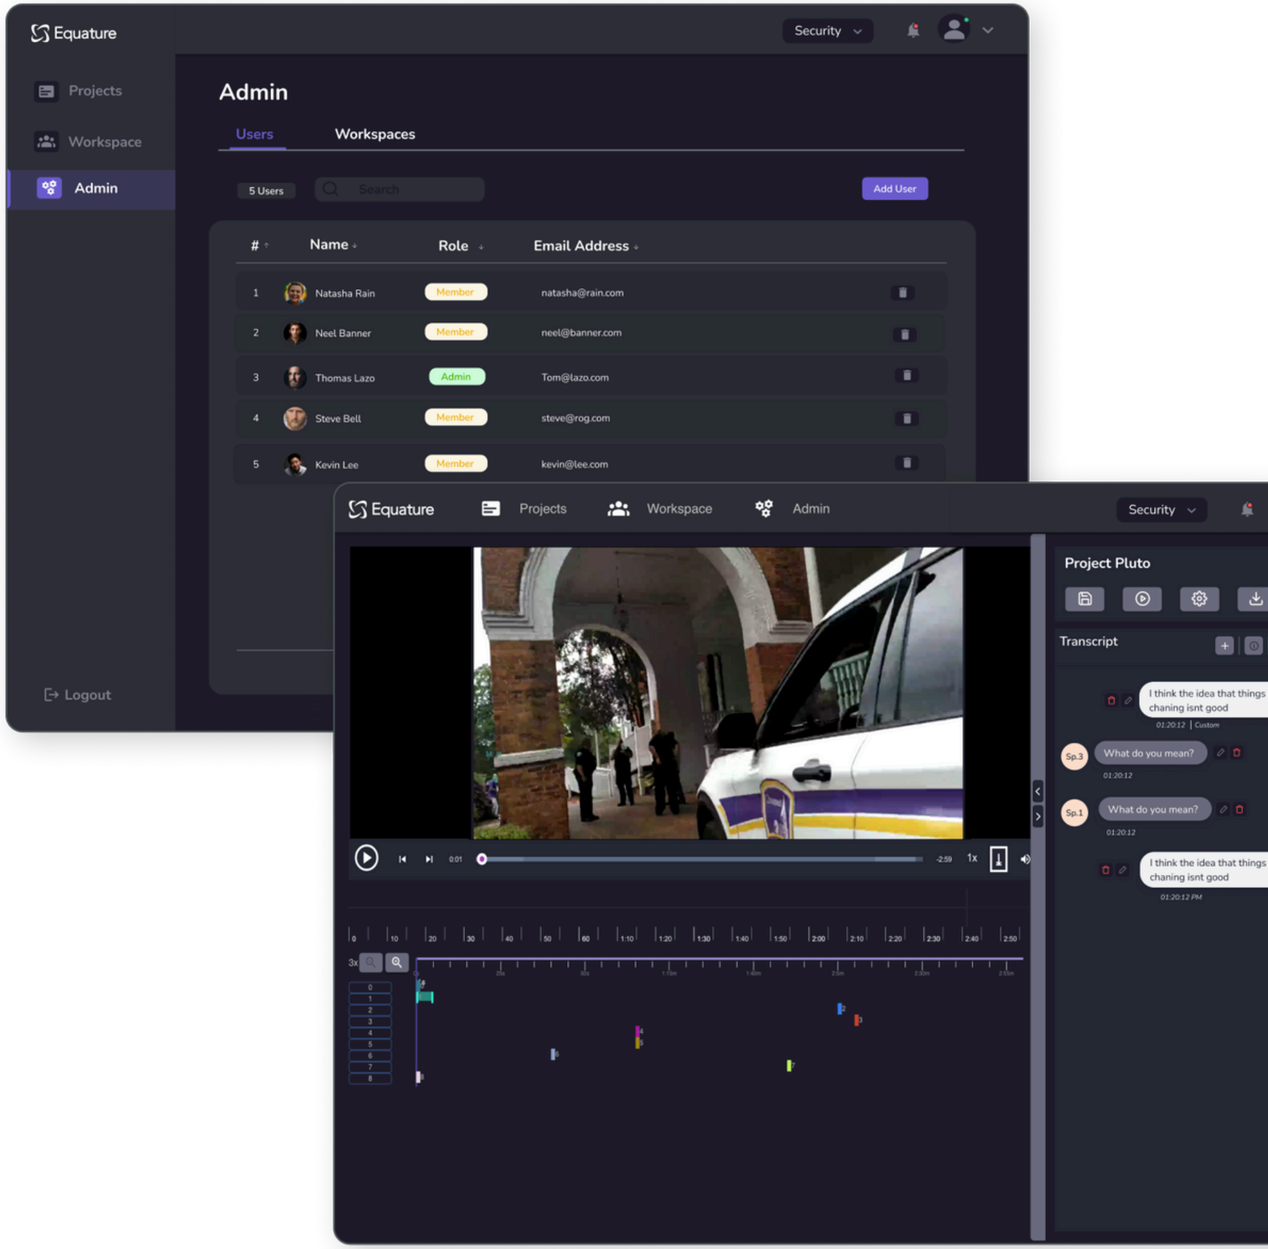
SwiftCore TECH

Public Safety

# Equature Studio

SwiftCore Tech collaborated with Equature to develop interactive web applications tailored specifically for the public safety industry.

Leveraging advanced AI algorithms and cutting-edge browser technology, our team created an interactive editor to redact audio and video data, ensuring that sensitive information remains secure and protected.



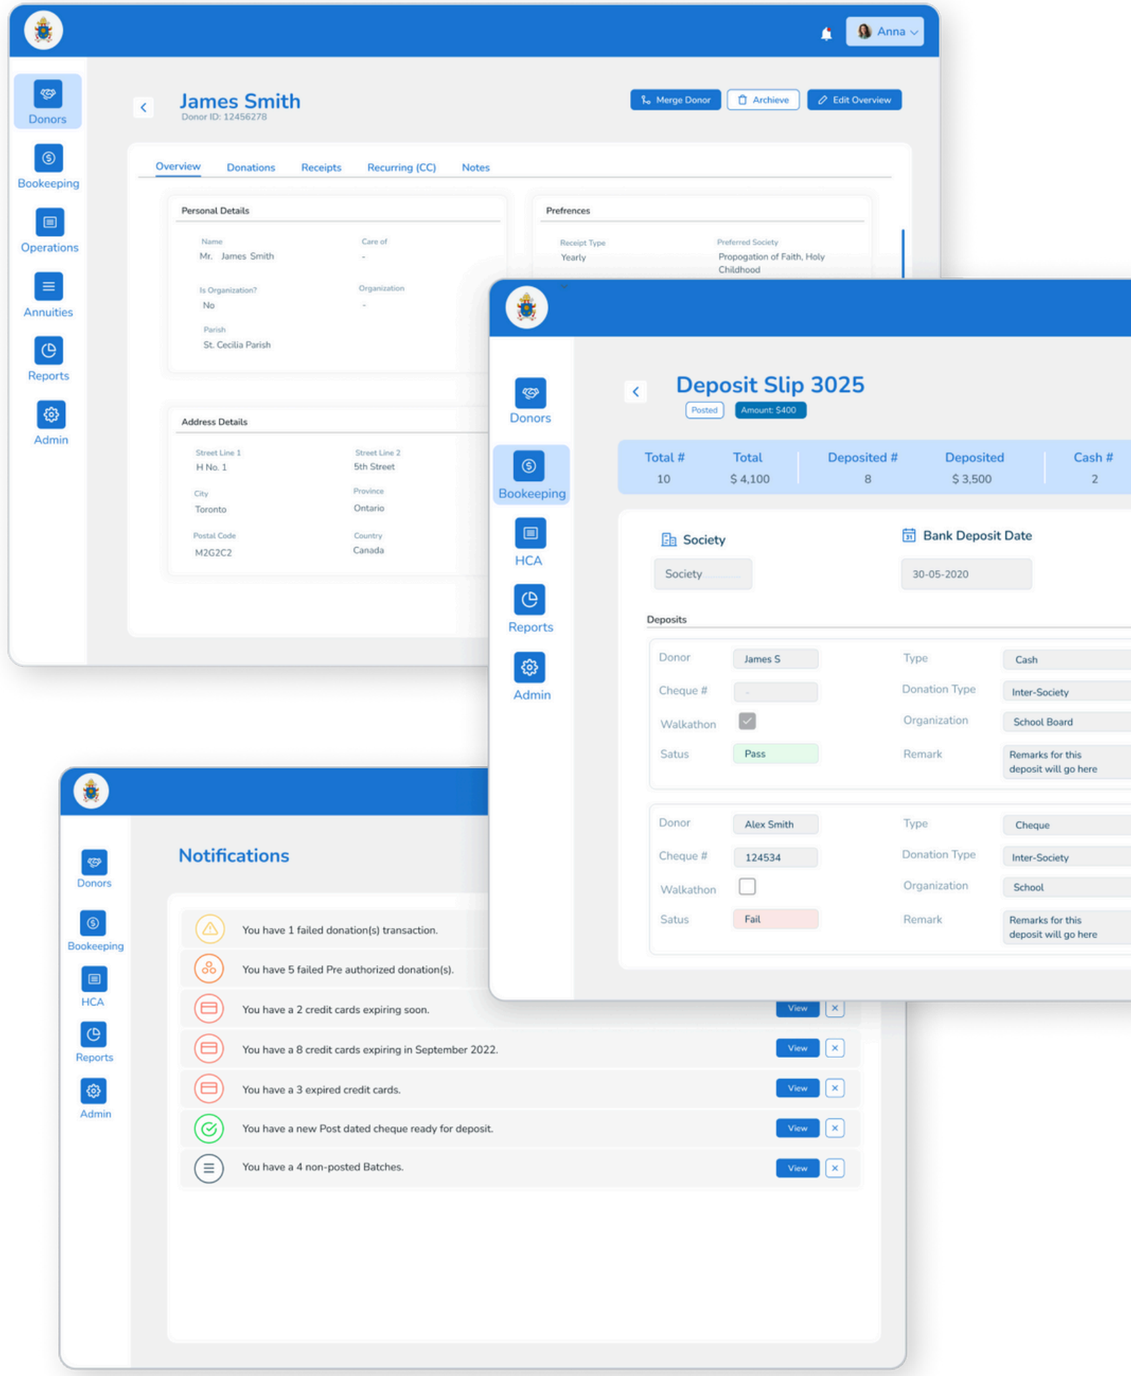
SwiftCore TECH

## Donation Management System

# Pontifical Mission Societies

We partnered with the Pontifical Mission Societies (PMS) to build a comprehensive CRM portal, streamlining their day-to-day operations and facilitating their fundraising efforts.

By migrating their existing platform from a legacy desktop application to an online portal, we introduced automation to their manual workflows, enhancing efficiency and productivity.



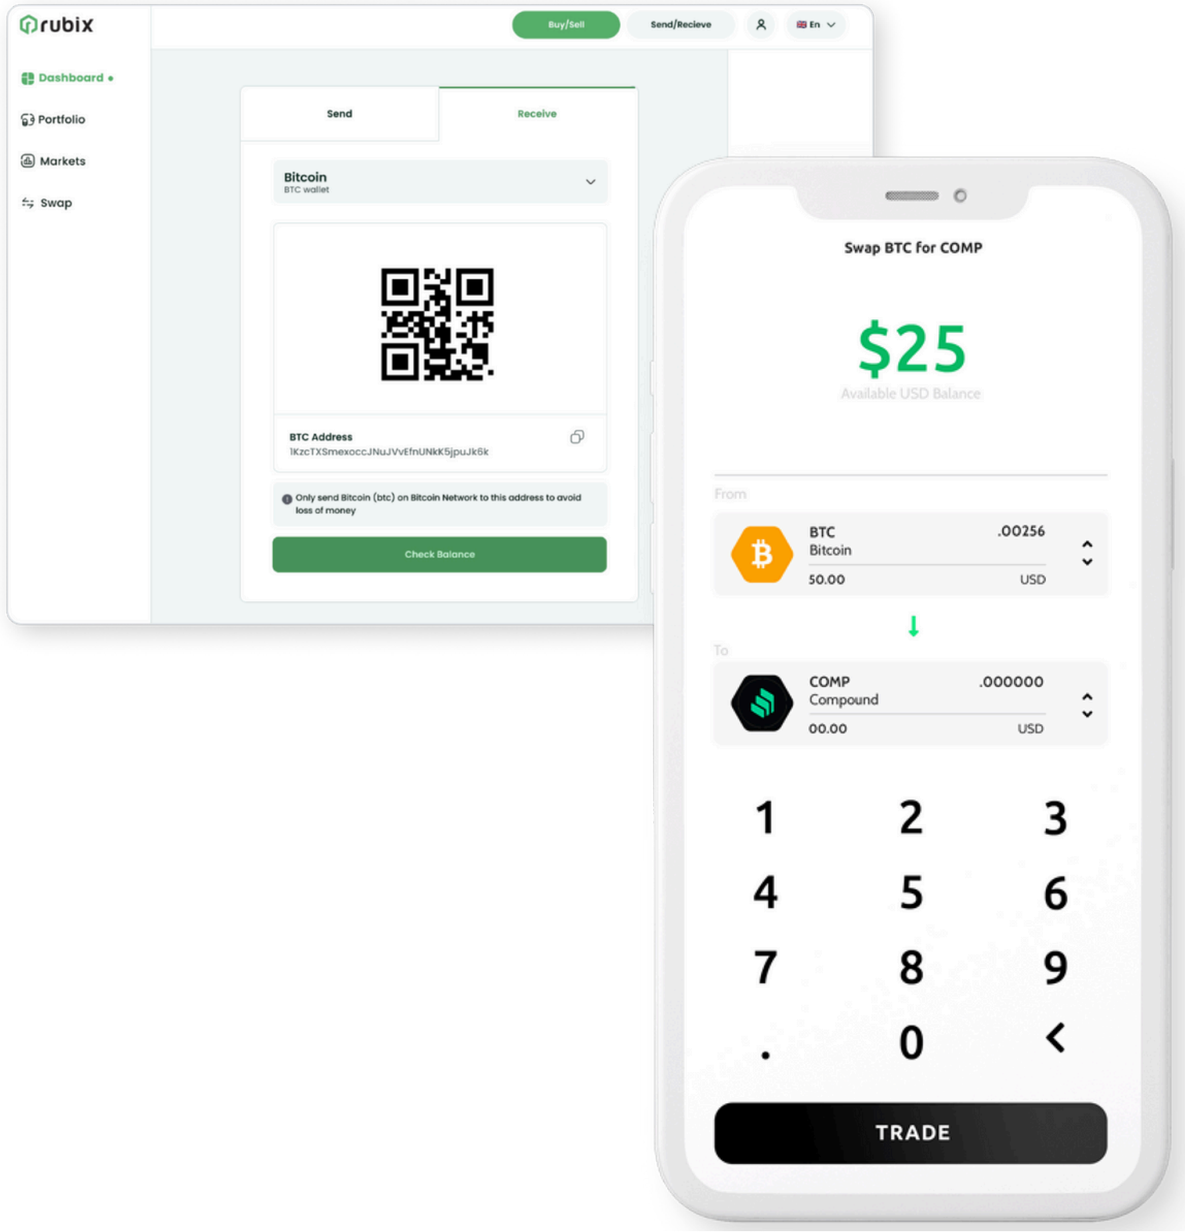
SwiftCore TECH

Blockchain/Finance

# Rubix Wallet

SwiftCore Tech collaborated with Rubix to develop a centralized cryptocurrency exchange application targeting users new to crypto trading. Working closely with an adjacent development agency, we modernized and expanded the product.

Our team developed mobile applications (iOS and Android) and created a feature-rich admin portal that seamlessly integrated with the client's daily operation applications, providing swift support and easy platform management.



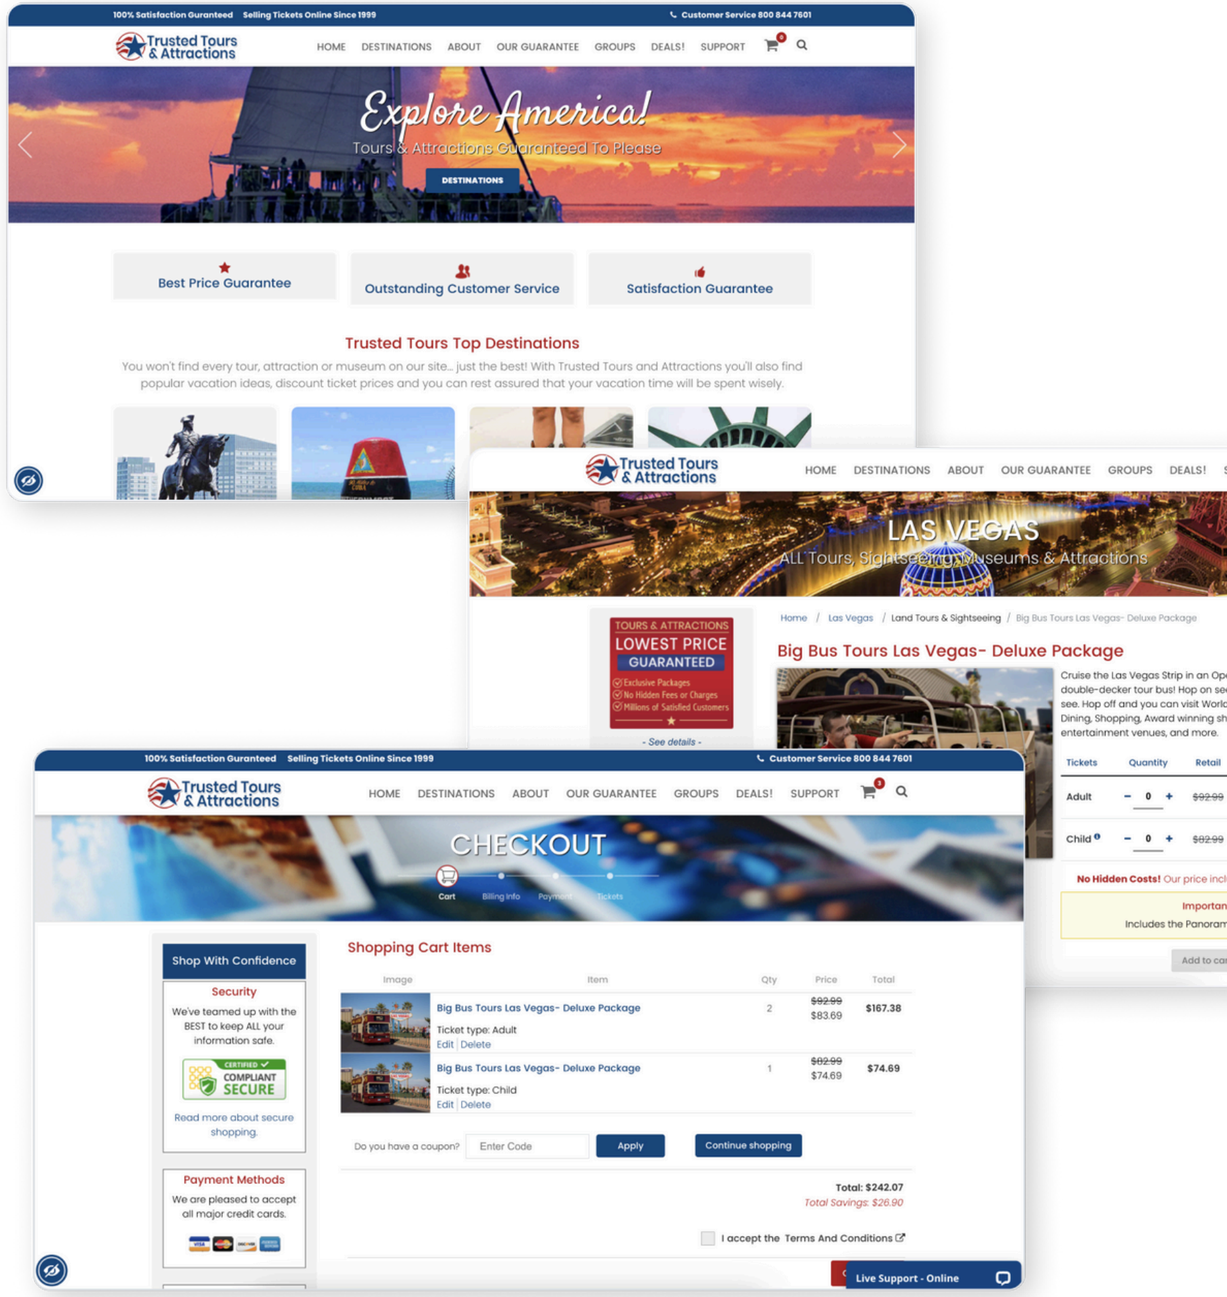
SwiftCore TECH

E-commerce Solution

# Trusted Tours

SwiftCore Tech collaborated with Trusted Tours & Attractions to develop a robust ecommerce platform, enhancing their online presence and streamlining their booking process.

By implementing a secure and user-friendly ticketing system, we enabled customers to effortlessly book tours, attractions, and museum tickets across the United States.



SwiftCore TECH

## Learning & Multilingual Solutions

# Onlea

In 2023, SwiftCore Tech partnered with Onlea, a digital learning services company based in Alberta, to integrate multilingual translations into various Google courses. This initiative ensured that students from diverse language backgrounds could effectively study and comprehend the material.

Additionally, we partnered with Onlea to develop a beta version of their AI-powered online platform, which simplifies access to learning materials by condensing, indexing, and extracting insights from extensive educational content.

## Government & Social Services

# CAMP

SwiftCore Tech partnered with the **Center for Applied Management Sciences (CAMP)** to enhance eLogic Genesis, a platform providing government assistance to various groups, including veterans, across the U.S.

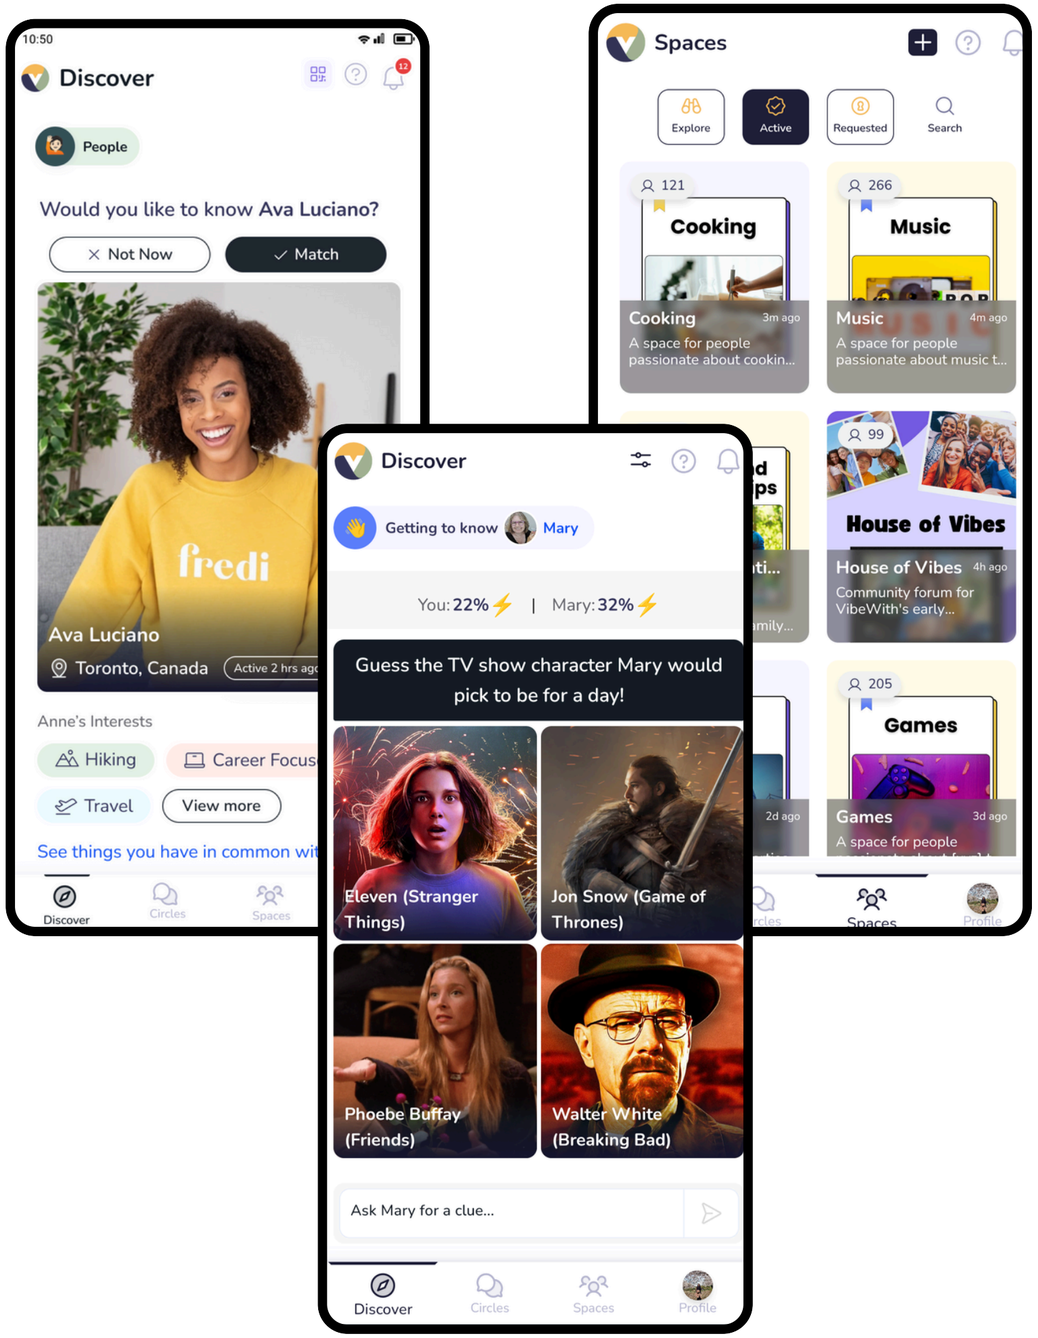
By collaborating directly with CAMP's internal technical team, we expanded the platform's capabilities, improving accessibility, efficiency, and support services for those in need.

## Social Media & Networking

# VibeWith

Vibewith is an app designed for creating meaningful friendships. It helps people skip the small talk and dive into genuine conversations through fun games. The platform allows exploration of diverse communities, challenging friends with engaging trivia and interactive activities.

Vibewith fosters deeper connections and a sense of belonging. Whether it’s meeting new people or strengthening existing relationships, Vibewith makes it easy to find and nurture your vibe



# Swiftcore Benefits

## 01 Flexible Team

Adaptive and collaborative experts who tailor solutions to fit your evolving needs.

## 02 On-Time Delivery

Commitment to meeting deadlines without compromising quality.

## 03 Process Efficiency

Streamlined processes that enhance efficiency and reduce overhead costs.

## 04 Scalable Solutions

Future-ready systems designed to grow with your business.
